

Triple Peaks Roofing — Our Roof Replacement Process

1

Free Inspection & Quote

We examine your existing roof and attic, explain your options, and provide a detailed, transparent replacement estimate. Our inspection identifies visible issues and potential hidden damage so you get an accurate proposal.

2

Material & Color Selection

Choose from a wide range of shingle styles, colors, and ventilation upgrades. We'll recommend options that improve energy efficiency and complement your home's architecture, helping you make the best long-term choice.

3

Safe Removal

We remove old shingles and underlayment, inspect the decking for any damage, and dispose of debris responsibly. Safety protocols protect your property and our crew throughout the removal process.

4

Installation

Certified crews install new underlayment, flashing, and shingles according to manufacturer guidelines for a durable, weather-tight roof. We follow best practices to ensure a seamless installation and long-lasting performance.

5

Final Inspection & Clean-up

We perform a thorough quality check, clean the job site completely, and register your manufacturer warranty. Before we leave, we ensure you're satisfied with the work and understand any warranty coverage details.
